

# White Knight

## Rust Guard Metal Primer Fact Sheet

---

White Knight Metal Primer is an anti-corrosive steel and structural primer. The combination of anti-corrosive pigments and tough resins provide a rust-inhibiting barrier with excellent adhesion.

### Suitable Surfaces

Metal Primer is ideal for interior or exterior use on steel, wrought iron and all ferrous metals.

### Preparation

The surface must be thoroughly cleaned, dry and free from grease, oil, dirt, salt rust scale and other contaminants. Remove loose rust and flaking paint with a wire brush, scraper or mechanical sander back to bare metal.

### Application Details

White Knight Metal Primer may be applied by brush, roller or spray. Stir thoroughly with a broad, flat stirrer in a circular lifting motion for at least 5 minutes before use. Stir at regular intervals during application. Do not use when the air or surface temperature is below 10°C or above 30°C. Pay special attention to sharp edges where the wet film may draw away.

### Coverage

Up to 14 square metres per litre depending on the nature of the surface. Clean Up with mineral turps.

### Drying Times

Drying Times Touch dry: 4 - 6 hours. Re-Coat: After 16 hours. Drying times will be slower in cold or humid conditions, in the absence of ventilation or where heavy film builds are applied.

### Clean Up

Clean brushes and equipment with Rust Guard Solvent or mineral turps.

### Pack Sizes

250ml, 500ml, 1 Litre, 4 Litre

### Health and Safety

Refer to Material Safety Data Sheet available by request on 131 686.

### HANDY HINT

Use on ferrous metals as an anticorrosive primer.
